

Inspection of landslides and road issues of Chongrang

SE Report

GANGTOK, February 16:

As per direction of Geyzing DC Yishey D. Yongda, a field visit under Chongrang block was conducted today for sorting out various roads, drainage, power and calamities related issues.

The day long joint inspection was carried out by a team comprising of engineers, zilla and ward panchayats concerned.

The areas covered by the inspection team were

Gerethang, Lower Chongrang, Nerdang and Tashiding monastery where the absence of drainage along the roads have caused major devastation during torrential rains of last monsoon. They also inspected damaged houses, power cabling requirements at the monasery and the recently black-topped road leading to the monastery.

The team would be submitting a detailed report to the district collector, an IPR release from Geyzing informs.
